WordPress Developer – Karachi

Description

We are looking to hire a skilled WordPress Developer to design and implement attractive and functional websites for our clients. You will be responsible for both back-end and front-end development including the implementation of WordPress themes and plugins as well as site integration and security updates.

To ensure success as a WordPress Developer, you should have in-depth knowledge of front-end programming languages, a good eye for aesthetics, and strong content management skills. Ultimately, a top-class WordPress Developer can create attractive, user-friendly websites that perfectly meet the design and functionality specifications of the client.

Responsibilities

- Designing and building the website front-end.
- Creating the website architecture.
- Designing and managing the website back-end including database and server integration.
- Generating WordPress themes and plugins.
- Conducting website performance tests.
- Troubleshooting content issues.
- Conducting WordPress training with the client.
- Monitoring the performance of the live website.
- PSD to WordPress Theme conversions
- Online Meeting with Team Managers working offsite.
- Understanding the requirements.
- Provide analysis and Time Estimates.

Qualifications

- Bachelor's degree in Computer Science or a similar field.
- Proven work experience as a WordPress Developer. **(Minimum 2 Years)**
- Knowledge of front-end technologies including CSS3, JavaScript, HTML5, and jQuery.
- Knowledge of code versioning tools including Git, Mercurial, and SVN.
- Ability to understand CSS changes and their ramifications to ensure consistent style across platforms and browsers
- Strong understanding of PHP back-end development
- Experience working with debugging tools such as Chrome Inspector and Firebug.
- Good understanding of website architecture and aesthetics.
- Ability to project manage.
- Good communication skills.
